

Santa Rosa Evacuation Zones (<http://santarosa.roktech.net/ags/evac/> )

Our Neighborhood has a section that is subject to evacuation in the event of a Hurricane.

All East Bay Village HOA homes with an address on Lola Circle is in "C" Zone. This means that any Category 2 or greater thru 5 Hurricane could require mandatory evacuation.

All East Bay Village HOA homes with an address on Bay Club is in the "NO" Evacuation Zone. This means that no evacuation will be ordered. However each homeowner needs to evaluate the situation and what their needs are. Hours and possibly days after a hurricane the aftermath may leave you stranded without power or access to roads.

Before the storm have an evacuation kit put together and be prepared to leave. If you need transportation call 850-983-4636 but don't wait until the winds get high because roads will be closed and transportation will not be available.
